

ROTAVATOR

ALPHA SERIES

SALIENT FEATURES

- International quality boron steel blades
- Heavy duty hitch pyramid
- Flexible spring damper assembly
- Heavy duty gear box
- Powder coated paint
- Ensures smooth operation in different soil types
- Superior quality seals

ROTAVATOR ALPHA SERIES

The Alpha Series is the complete authentic machine with the versatility of the previous models along with new added features. The sophisticated robust design makes it suitable for working in all soil conditions. The mechanical seals provide complete protection to the bearing unit which ensures its efficient working in wet & muddy conditions as in case of paddy.
